Training Approach

- Mon/Wed = Strength days (heavier, 10-12 reps, 90s rest)
- Thu/Sat = Volume days (lighter, 12-15 reps, 60s rest)

HOW TO READ EACH EXERCISE CARD

Element	What It Means
Sets x Reps	e.g. 3 x 12 = 3 sets of 12 reps
Rest	How long to rest between sets
RIR	Reps In Reserve = how many reps you could still do. RIR 2 = stop 2 reps before failure
Alt	Alternate exercise you can swap in (same muscle, different movement)

Intensity Technique Tags

DROP	Drop Set = on last set, reduce weight 30-40% and immediately do more reps (no rest)
FAILURE	Go to Failure = on last set, keep going until you can't do another rep with good form
SUPERSET	Superset = do both exercises back-to-back with no rest between them

Simple Intensity Rule

Exercise Type	Techniques	Examples
Compound lifts	NONE - just progressive overload	Bench, Squat, Row, RDL
Isolation lifts	DROP / FAILURE / SUPERSET OK	Curls, Flys, Pushdowns, Raises
